## **UPDATE ON THE SUN TRAIL FUND PROGRAM AND SOLICITATION OF PROJECTS THROUGH THE MPO PRIORITY PROCESS**

**RECOMMENDED ACTIONS:** This is not an action item. MPO staff will provide an update on the SUN Trail Program funds and will lead a discussion on the eligible projects in Lee County for submitting through the MPO Priority Process.

Staff will provide an update on the Shared Use Non-Motorized (SUN) Trail Program. Under this program \$25 million per year is available for implementation of shared use paths on Priority Trail Corridors in the OGT Greenways and Trails Master Plan. The first year of funding is this fiscal year but the funds have been roll forwarded to the next fiscal year as no projects were selected for funding. Below is information pertaining to eligibility criteria and the type of work that can be funded:

Pursuant to 339.81, F.S., the Sun Trail network excludes:

- a. Sidewalks;
- b. Loop trails wholly within a single park or natural area;
- c. Water trails;
- d. The Florida National Scenic Trail; and
- e. On-road facilities such as bicycle lanes or routes, except for:
  - i. On-road facilities that are no greater than a ½ mile in length connecting two or more non-motorized trails if the provision of non-road facilities is unfeasible and if such on-road facilities are signed and marked for non-motorized use;
  - ii. On-road components of the Florida Keys Overseas Heritage Trail.

As reported by the SUN Trail Program Manager, FDOT will undertake the following phases for multi-use trails that are part of existing state and local plans: corridor and feasibility studies, PD&E, design, right of way, construction and reconstruction. Pursuant to 335.065(4), F.S., FDOT will give priority to trails that:

- a. Are identified by the Florida Greenways and Trails Council as a priority within the Florida Greenways and Trails System under chapter 260.
- b. Support the transportation needs of bicyclists and pedestrians.
- c. Have national, statewide, or regional importance.
- d. Facilitate an interconnected system of trails by completing gaps between existing trails.

## **REPORT ON SR 82 CRASH ANALYSIS**

**RECOMMENDED ACTIONS:** This is not an action item. MPO staff report the crash analysis results of the SR 82 Corridor from Colonial Boulevard to SR 29

The Lehigh community has been expressing safety concerns on SR 82. In a Lehigh Acres Community Council meeting last year, the Lee County Sheriff's Office had also called attention to the number of crashes that had been occurring in the corridor. Recently, the Fort Myers Florida Weekly carried an article in October 5<sup>th</sup> that reported that SR 82 has developed a reputation for deadly crashes.

The MPO has now conducted a crash analysis of the two lane section of the SR 82 corridor from Colonial Boulevard to SR 29 in Collier County. The analysis covers a time period from 2013 to October. A total of 20 fatalities occurred during this period. The crash analysis results are **attached**.

## SR 82 from Lee Blvd to SR 29 (includes Collier, Hendry and Lee crashes)

Crash analysis covers a time period from 2013 to mid-October 2015 (may exclude the pending ones which are under investigation). Results of the crash analysis are as follows:

- 1010 total crashes
- 20 fatals (about ¼ of the crashes had multiple or triple fatals per crash)
- 610 injuries (some crashes had between 1 and 10 injuries)
- 37 were alcohol related
- 151 were distraction related
- 6 drug related
- 294 were dark-lighted or dark-not lighted
- 658 were daylight or dusk or dawn
- 59 unknown if it was dark or light
- 848 was clear or cloudy
- \$6.3 million in vehicle damage
- \$25k in property damage
- 15 fatal crashes resulting in 20 fatalities
- 76 incapacitating injuries of 610 total injuries of 334 injury crashes

(Yellow dots are the crashes along the SR 82 corridor within the project limits)
